

TO BE A CLEANSWEEP.**SCORES OF EVICTIONS**

Lawyer Moss Details Plans for Police Reorganization.

Every Man from Superintendent Down to Be Removed.

Police Justices May Follow Under the Proposed New Law.

Lawyer Frank Moss, associate counsel of the Lexow Investigating Committee, went into details to-day on the proposed scheme to reorganize the Police Department. Not only is it the scheme that the Commissioners and Supt. Byrnes shall step down and out, but every inspector, captain, sergeant and patrolman is to be legislated out of office.

The intention is to create a new police department and that the present institution shall cease to exist. It is also possible that it will be made a military body and that the proposition of the Board of Trade and Transportation, and which is also pending before the Chamber of Commerce, will be accepted.

Mr. Moss is not drafting the proposed bill, as erroneously stated. Opinion has been expressed, and there is a unanimity of opinion among reformers that the only thing possible is the creation of the new department.

While the reorganization scheme will have nothing to do with the police courts, it is announced that every justice will also have to go under the proposed Mayor's Power of Removal bill.

"For," said Mr. Moss, "in explaining the details to an 'Evening World' reporter, 'it is absolutely impossible any longer to even tolerate these justices, or at least a majority of them. They are a disgrace to the city. It would be useless to attempt any kind of reform for the city and allow any of the baronies to remain. I can state that the removal of the police justices will be provided for as well as many heads of other departments.'

"We dare not attempt to tinker with the present Police Department," Mr. Moss added. "Everybody in it is under a cloud, and, while there are undoubtedly some good patriots who are not just under that cloud, there are thousands who are a disgrace to the force. Everybody, from the top down, will have to be created, and then every man can apply for positions upon it. The good men at present on the force can hardly be provided for. The bad will be cut off."

"I am afraid the proposed bill could not be passed in time for the election, but all those on the force now would be cut off."

"To my mind, it is the most outrageous thing in the world to see a good strong man, simply because he has put in twenty years on the force, receive only a thousand dollars a week to secure another position at \$1,500 a year or so. I could point out dozens of such cases."

"According to the police force generally, we could keep the Lexow Committee busy for a month with cases of blackmail and the like of patriots. We have had men shadowed out for days. We have seen nearly every streetwalker blackmailed by them. We have seen many street strikers in Brooklyn, and eight prisoners were arraigned charged with robbing, malicious mischief and assault. Each of the cases was adjourned."

"Last night a crowd of strikers, including several women, mobbed the residence of Mrs. Schwartz, on Rockaway Avenue. Mrs. Schwartz was at home. The mob assaulted Mrs. Schwartz, knocking her down and breaking her kicking her. She was ill to do justice to the mob. Complaints against seven of the mob have been made."

MOBBED BY STRIKERS.**Mrs. Schwartz Severely Beaten in Her Home.**

Lawyer Frank Moss appeared in the Gates Avenue Police Court, Brooklyn, to-day as counsel for a number of non union tailors employed by Friedman Bros. and Meyer Jonasson, of New York, who have been accused of being strikebreakers. Eight prisoners were arraigned charged with robbing, malicious mischief and assault. Each of the cases was adjourned.

"As to the trials of the men in future, what is to prevent the Superintendent and his four Inspectors acting as trial-bar or a court-martial, as in the army?"

"Is it your intention that Supt. Byrnes should be a general?"

"Most decidedly," was the reply. "He will have to go with the rest."

Mr. Moss paid tribute to the work of Secretary Schlesinger of the Society for the Suppression of Crime.

The people of this city owe more to him for his efforts than any other man.

He has stood loyally by the reformers in this fight, in spite of the fact that his business interest lay largely in Tammany Hall. He does his work well.

Mr. Moss added that the Lexow Committee was positively renew its session Dec. 1.

"Mr. Goff," he concluded, is not seriously ill. He is simply worn out, but will be all right again by the date mentioned."

Appo, the ex-green-grocer, was with Mr. Goff for over an hour this morning. He left the office on his own account, and returned with a stylishly dressed woman. She too, spoke in an undertone, but the two were evidently known that they were taking a walk.

Steeters, the lawyer, was present.

"Most decidedly," was the reply. "He will have to go with the rest."
